Professional Summary

A Biochemistry graduate transitioning into Full-Stack Engineering, with foundational knowledge of HTML, CSS, JavaScript, and beginner-level React. I've built personal projects including a to-do list, weather website, and landing page to sharpen my frontend skills. Passionate about using technology to solve real-world problems, I'm eager to contribute to meaningful projects, learn from experienced teams, and grow while supporting the company's development.

Skills & Tools

Technical Skills

- Languages: HTML, CSS, JavaScript (beginner-level React)
- Tools: VS Code
- Design: User interface design principles

Soft Skills

- Problem-Solving: Quick at learning and adapting to new tech.
 - Collaboration: Experience working in teams on projects
 - Attention to Detail: Focus on creating clean, functional, and visually appealing code.
 - Time Management: Effectively balancing learning with project work.
-

Work Experience

Biology Teacher

Habsan Achievers Academy, Gajiri

June 2024 – April 2025

- Delivered engaging and interactive lessons to 10 students, improving their understanding and performance in Biology.
- Mentored students, fostering growth in both academic and personal development.
- Collaborated with a team of teachers to organize and execute school events, demonstrating teamwork and communication skills.

Personal Projects

- **Landing Page for Author**
Technologies: HTML, CSS

Designed and built a simple landing page for an author to help market their work. The page was optimized for both desktop and mobile devices, with a clean and visually appealing layout.

- **To-Do List App**

Technologies: HTML, CSS, JavaScript

Developed a dynamic to-do list application that allows users to add, check off, filter tasks, and manage items in a trash bin. Users can restore tasks or permanently delete them, enhancing productivity through an intuitive interface.

Education

Bachelor of Technology in Biochemistry

Olusegun Agagu University of Science and Technology - *Graduating 2024*

CGPA: 4.21/5

Certifications and Learnings

- Frontend Development – AltSchool Africa (Ongoing)
Currently learning HTML, CSS, JavaScript, and React through hands-on projects and mentorship.
- Self-Directed Learning
Built real-world projects using tutorials, YouTube, and articles to deepen frontend development knowledge.

Languages

- English (Fluent)
- Yoruba (Fluent)

Additional Information

- Willing to Relocate & Open to Remote Opportunities
- Interests: Personal development, technology for social impact, teaching, storytelling
- Volunteer Work: Designed and led a 3-month literacy improvement program for underserved students during NYSC, helping increase reading ability by 30%.
